The Egtved Lexicon

The Egtved range offers a wide range of socks that match different occasions and needs. But which socks should you choose and what are their special features?

The Egtved Lexicon gives you the answers when you are in doubt. Here, you find the product information and key features you need to give your customer the best guidance and advice.

What we call our socks

	SOCK	A classic sock suited for everyday use – both formal and casual.	En klassisk strømpe, der passer til hverdagsbrug – både til formelt og afslappet brug.
	KNEEHIGH	A sock intended to hide bare skin while maintaining circulation in legs and feet.	En strømpe, der er designet til at skjule bar hud, mens den sikrer god cirkulation i ben og fødder.
	FOOTIE	An ankle-high sock usually used in spring and summer when wearing shorts or casual trousers.	En ankelstrømpe, som typisk bruges i foråret og om sommeren, når vi går i shorts eller afslappede bukser.
	INVISIBLE	A no show sock that protects your feet. Perfect for casual trousers, loafers and sneakers.	En usynlig strømpe, der beskytter dine fødder. Perfekt til afslappede bukser, hyttesko og sneakers.

Qualities

To ensure great comfort and fit, Egtved socks are made of quality fabrics. From natural materials such as cotton, wool and bamboo to synthetic materials such as polyamide and elastane.

In the table below, you find a short description of each material used in our Egtved range. This will help you to better understand what makes them different and which ones fit the needs of your customer.

COTTON	A natural material that allows your feet to breath and which feels soft against the skin.	Et naturligt materiale, der lader dine fødder ånde, og som føles blødt mod huden.
MERCERISED COTTON	A luxury fabric with a silky wash-resistant shine. Offers high colour-fastness and great strength.	Et luksuriøst og glansfuldt materiale, der er meget slidstærkt, også i vask. Det holder farven godt.
WOOL	A natural material with great insulating properties that keep your feet comfortable and dry.	Et naturligt materiale med gode isolerende egenskaber, som holder dine fødder tørre og behagelige.
BAMBOO	A natural and soft material that is 3-4 times more absorbent than cotton. Keeps your feet drier and more comfortable.	Et naturligt og blødt materiale, der absorberer 3-4 gange så meget fugt som bomuld. Holder dine fødder tørre og mere behagelige.
POLYAMIDE (NYLON)	A strong, hardwearing synthetic fibre. Is often used in a blend with other fibres to improve durability and to add stretch.	En syntetisk fiber, der er meget slidstærk. Den bruges ofte i en blanding med andre fibre for at forberede holdbarheden og tilføre stræk.
ELASTANE (LYCRA)	A lightweight, synthetic elastic fibre that offers a great fit and stretch.	En let, syntetisk og elastisk fiber, der giver en god pasform og et godt stræk.

Egtved specialities

Detail is king. The same goes when you are choosing socks. As an exclusive sock brand, Egtved offers many special features that provide extra comfort and functionality. Socks may appear as an insignificant part of an outfit. But, in fact, they have great potential – and when they are carefully

chosen, they have the ability to change a look and increase your well-being.

Below, you find a short description of the three specialities that characterise Egtved.

TWIN

A doubled layered sock with temperature regulating merino wool on the outside and soft cotton on the inside.

...

En strømpe med to lag. Ydersiden er lavet med temperaturregulerende merinould og indersiden med blødt bomuld.

NO ELASTIC

A sock produced without the normal elastic at the top. It is comfortable to wear and remains firm without restricting blood circulation.

...

En strømpe lavet uden den almindelige elastik i toppen. Den er behagelig at have på og bliver på plads uden at hæmme blodcirkulationen.

VENTILATED SOLE

Small air pockets are sewn into the sole of the socks. This provides enhanced breathability.

...

Små luftlommer er syet ind i strømpens sål. Det giver ekstra åndbarhed.

Egtved features

High wearability and great comfort are some of the key qualities that characterise Egtved. Even though some of the key Egtved features are not visible to the eye, you will immediately feel the difference.

Egtved socks are constructed to give you a comfortable fit and a better wear. And they have thin seams to reduce irritation while you are wearing them.

HIGH DURABILITY

Egtved socks features an extra reinforcement on high-wear areas, such as the heel and toe areas. This ensures enhanced durability.

...

Egtved-strømper har ekstra forstærkning på udsatte områder, såsom områderne ved hælen og tåen. Det sikrer ekstra slidstyrke.

Extra reinforcement

Areas exposed to high-wear have extra reinforcement

COMFORTABLE

Egtved socks have a larger area around the heel and toes and a comfort top with inside elastic. This ensures that they are comfortable to wear.

...

Egtved-strømper har et større område ved hælen og tæerne og en komforttop med indvendig elastik. Det sikrer, at de er behagelige at have på.

Greater comfort

Comfort top

Larger area ensures high comfort and a perfect fit.

Terms used in the catalogue

Throughout the catalogues, you will come across technical terms. In the table below, you find a short description of these terms. Use the vocabulary whenever you are in doubt.

REGULAR	Thickness as a regular sock.	<i>Tykkelse som en almindelig strømpe</i>
HEAVY	Extra thick sock.	<i>Ekstra kraftig strømpe.</i>
PLAIN	Sock with smooth surface.	<i>Strømpe med glat overflade.</i>
VENTILATED SOLE	Sole with small air pockets that provide enhanced breathability.	<i>Sål med små luftlommer, som giver forbedret åndbarhed.</i>
